

Life Cycles: Desert

By Sean Callery

Kingfisher. Hardcover. Book Condition: New. Hardcover. 32 pages. Dimensions: 10.8in. x 9.1in. x 0.4in. About the Series Each book in this essential series reveals the life cycles of ten animals in a particular habitat which link together to create three food chains. At the end of the book a simple overview helps readers understand how the three food chains interact to create a food web- the perfect first introduction to this core science concept. Because the harsh environment of the desert makes resources scarce, the animals that make their home in the world's driest environments are intimately interconnected. This highly-visual title explores three desert food chains in three of the globe's driest regions: the Kalahari in Africa, the Australian Outback, and the Mojave Desert in the US Southwest. Along with a clear explanation of each lifecycle, the book highlights three key facts about each animal, and color-codes the foodchains for easy navigation. From the smallest inhabitants like the termite and the millipede, right through the predators at the top of the food chain such as the Jackal and the Bobcat, young readers will thoroughly understand how each animal is critical for sustaining the entire desert ecosystem. This item ships from multiple locations....

This pdf will not be simple to start on reading through but extremely enjoyable to see. I have read and i also am sure that i will planning to read through again once more in the foreseeable future. You wont really feel monotony at whenever you want of the time (that's what catalogues are for relating to if you request me).
